

Justice must **NOT** be for sale!

- **Judicial campaigns are not an auction!**
Seats on our state Supreme Court must *not* be auctioned off to the highest bidder in a campaign “financial arms race.”
- **Justice and the courts must be impartial.**
Difficult issues come before the court. The public needs to know there is fairness and impartiality in court decisions. The law must rule – not ideology backed by campaign cash.
- **Keep our top court free of corporate influence.**
Public financing of campaigns for Supreme Court seats is the **ONLY** way to assure high-quality judicial candidates who are not beholden to any special interest or extremist ideology.
- **Judges should be judges – not fund raisers.**
Judges should not have to raise large private sums to run for judicial office – yet the public needs to know about them as candidates. The solution? Campaigns financed publicly!
- **Public financing for judicial campaigns – a program that works!** North Carolina offers public financing for judicial campaigns – and the result is a supreme court that is fair and impartial, trusted by the voters – and focused on the law.
